**RE: APPLICATION FOR WORK INTEGRATED LEARNING IN THE GREEN INDUSTRY  
NC Bhengu, student number: 215784720**

As part of our National Diploma in Horticulture and Landscape Technology, students need to complete a year of Work Integrated Learning. Two semesters, from January to June (21 weeks) and July to December (21 weeks) or as per company / organizational requirements. The student will register per semester at TUT.

In short this means working at a company or organization in the green industry gaining knowledge and experience. This forms an invaluable part of their education and better equips them to become a success in the work environment.

There is no formal list of competencies that is specified as this depends largely on the operations of the company or organization involved, however the student should gain a broad understanding of the operation of your organization. Even relevant administrative tasks are important experience. The student is expected to hand in a written report for each semester. This report should provide written and pictorial evidence of the tasks the student has performed. This will be done under the supervision of the WIL Coordinator at TUT and a mentor in your organization.

It would be a wonderful opportunity if your organization would be prepared to offer the bearer of this letter such a 'working and learning' position.

This letter serves as introduction and hopefully we can build a successful partnership that is beneficial to both parties.

Please feel free to contact me for any further information.

Thank you for your consideration in this regard.

Kind regards

A handwritten signature in black ink, appearing to read 'Lana Marais'.
