Object: Application from, for a two-month internship in landscaping design (18th June – 31th August)

To whom it may concern

I am actually student in a three-year university postgraduate program leading to an landscaping engineer diploma, in ITIAPE (LILLE, France).

In order to confirm our second year, I have to do a two-month internship in a design office specialized in landscaping. I would like to take this chance to discover land. This internship will take place between the 15th of June and the 15th of September 2018.

I am currently in formation for 3 years in a school training landscape and agricultural engineers. We have to stay for 2 months in an English speaking country. This stay will allow us to improve our English, discover a new culture and the design of landscaping projects.

I graduated my HND in landscaping with good grades. During my training, I had to work in team on the landscape design of a plot of land. We realized this project about the recycling of materials. My main internship allowed me to consolidate my desire to work in the landscaping field. My dream would be to participate in the replanting project of a forest.

My two internships in Ireland made me discover English gardens. I really liked working in these green and flowering gardens. I learned how to maintain and associate the plants with each other with a gardener specialized in English garden. I participated in the creation of tepee and a totem.

Working in your company would be a real opportunity to enrich my knowledge of botany and urbanism and improve my English. Through my various trips, I collected quite a large amount of knowledge in terms of landscape design. In addition, participating in the design of a project will bring me closer to my future clients.

Please find attach with this letter my resume.

If you have any further question, please contact me at +33 6 30 90 57 67 or [ophelie.outtier@isa.yncrea.fr](mailto:ophelie.outtier@isa.yncrea.fr). I am available for an interview at your convenience.

I am looking forward to hearing from you.

Sincerely,

OUTTIER Ophélie
